

What is your Good Life? Working from home...

- We bought a trampoline! It's set up outside my "office" window so I can keep an eye on the younger two kids. This has been helping keep the kids entertained & Good exercise too!
- We've been sleeping in! With the kids doing SPS at home we haven't had to rush around to get everyone out of the house.
- Being creative with learning opportunities for the kids especially the kindergartner! We're taking advantage of virtual dance classes & music lessons.
- We have been cooking more meals at home and getting the kids more involved with cooking.
- Utilizing FaceTime, Zoom, Messenger Kids, and Facebook has been a fantastic way for us to check on friends/family and individuals too.
- It's a balancing act being mom, wife, teacher, and SC. Taking it day by day and trying not to sweat the small stuff has helped.
