

We are counting down the days until we can return to Camp Barnabas. 2020 was not what we expected but we are preparing every day to make sure 2021 makes up for the summer we missed. As we prepare to welcome you back this summer, our top priority is to keep every camper, missionary, and staff member safe and healthy by implementing new COVID-19 precautions.

From an adjusted arrival process and video closing ceremony to additional cleaning measures and training, camp will look a little different this year. Some of these new practices will be behind the scenes and some will be apparent once you arrive. Before you do arrive, please note that in order for anyone to enter camp property, you must meet ONE of the following requirements:

- 1** Negative COVID-19 test result within 5 days of arrival
- OR**
- 2** Proof of full COVID-19 vaccination
- OR**
- 3** Evidence of COVID-19 antibodies within 4 months of arrival

Although some things may be different, the life-changing experience that is Camp Barnabas will remain the same. What makes Camp Barnabas great is not the distance from which we socialize, but the connections that take place and the foundations made for life-long relationships. And that is not going anywhere!

Please stay tuned as we continue to make adjustments based on the evolving recommendations from the CDC and local health departments. To learn more about the Camp Barnabas COVID-19 response and for the latest updates, visit: campbarnabas.org/covid.
